

Notice of Construction – Dundas Street

Dear Resident, Business/Property owner,

Len Corcoran Excavating Ltd. (LCE) has been contracted by the County of Lennox & Addington and the Town of Greater Napanee to reconstruct Dundas Street from Robinson Street to Centre Street.

The project generally consists of replacing underground water and sewer infrastructure, repaving Dundas Street, and replacing sidewalks. To facilitate the work, road closures will be required and detours and traffic delays can be expected.

The construction work is scheduled to start on approximately April 11th, 2017, with construction crews starting with the initial test digs. Following the test digs, crews will begin excavating the services in the Robert to Centre Street block with the main pipe installation occurring shortly after the service excavation completion. Ongoing notice will be given to advise of future block closures as work progresses. Access will be provided to Emergency Service Providers and pedestrians looking to conduct business within the affected areas.

We appreciate your patience during the construction.

Should you have any questions or require any further information please contact one of the following or speak with any senior staff on site wearing a white hard hat.
